RE: TROMPSBURG NEW DISTRICT HOSPITAL – STEEL SHELVING & LOCKERS

This correspondence serves as a confirmation that Storage Concepts have been appointed as a subcontractor on the above project for the supply and installation of all steel shelving and lockers. The Principal Agent prepared tender documents for the works and various shelving companies were invited to submit a price for this specialist installation.

With reference to the priced documentation submitted by subcontractors and due diligence done, Storage Concepts were awarded the tender.

A “start-up” meeting was held with Storage Concepts, concluding contract documentation, agreement of the works programme with reference to procurement of materials, delivery and installation. Throughout the installation all agreed dates were achieved in terms of delivery and installation. The installation has also been inspected by the client and it can also be confirmed that the quality of installation and product has been of a high standard.

Storage Concepts has approached the appointed subcontract from commencement to completion in a professional manner and the installation has been successfully signed off.

Kind Regards

EJ Bubb

Senior Quantity Surveyor
